The State Water Board plans to release a second draft of the Phase II Municipal General Stormwater permit by the end of March, 2012. Municipalities and MCSTOPPP will have 60 days to comment. No date has been set for final permit adoption at this time.

During the last half of 2011, MCSTOPPP staff actively participated at the State level with other Phase II municipalities, the California Stormwater Quality Association, State Water Resources Control Board staff, and participating non-governmental organizations in the ongoing stakeholder process designed to revise the current draft Phase II permit. Our current understanding is that the State will release a more cost-effective draft permit for our consideration in March.

In FY 12-13, MCSTOPPP staff will continue implementing the existing Phase II permit compliance program and will work with Marin's municipalities to develop a 5-year MCSTOPPP implementation plan and budget based on the final Phase II re-issued permit.
