MEMORANDUM

DATE: September 13, 2012

TO: MGSA Board of Directors

FROM: Paul Berlant, Executive Officer

SUBJECT: AGENDA ITEM: F: Streetlight Program Update

Recommended Action

Receive this report. No action is requested.

Background

On May the MGSA board approved an agreement with Republic ITS for streetlight maintenance, effective July 1, 2012. Since then, Republic has been working with each of the MGSA members to implement the provisions of the new agreement. Among other things, members have selected the level of service they desire and are working with Republic to designate the streets for night-check purposes.

Attached is a summary of the August 1, 2012 MGSA inventory of streetlights by member, reflecting the type of lights each member currently has and the level of service each has selected. I have used this updated inventory to also identify the recent conversions to LED and Induction lights. As you can see, almost one-quarter of the lights have been converted to these energy saving fixtures. You will also note that four of the 13 members have selected the Schedule B level of service, which is the new, enhanced service level, but without pre-paid party pole knockdown service.
